Other Skills: Communication, Project Management, Teamwork, Problem-Solving

INTERNSHIP

Nuclear Power Corporation Of India Limited (NPCIL) — Dec 2024
Web Development Intern
- Worked on enhancing the Simulation Information Management System (SIMS) at NPCIL by adding a new user type, SMTT_Member, to the existing workflow.
- Streamlined the multi-user process involving Modeler, Convener, TF Member, and SMTT_Member, enabling efficient form submissions, assignments, and verifications.
- Implemented a two-cycle retest workflow where rejected submissions loop back through Convener and TF Member, ensuring thorough reviews before acceptance.
- Improved system functionality and iterative processes, leading to enhanced accuracy and robust workflow management.

UNIVERSITY PROJECTS

TRAVELALL WEBSITE|React, HTML, Bootstrap, JavaScript — March 2024
- Developed the Travel All static website.
- Included Main, Home, Navbar, and Footer components.
- Used CSS for an appealing and user-friendly design.
- Delivered a clean and responsive static web interface.

WEATHER AGENT CHATBOT|React, TypeScript, HTML/CSS, JavaScript, API — July 2025
- Created an AI agent interface using React, TypeScript, and the Mastra framework.
- Implemented dynamic workflows with tool-based agent responses.
- Deployed via Vercel using a fast, optimized Vite setup
